THE DINES LETTER UPGRADES MAWSON RESOURCES FROM A 'HOLD' TO A 'BUY'

MAWSON COMMENCES DRILLING AT ITS 'DUOBBLON' URANIUM PROJECT IN SWEDEN

- Near-surface diamond drilling program underway
- 48 holes planned over a strike length of 5.7 km on a grid pattern of 400m by 100m
- previously calculated inferred NI 43-101 compliant resource of 13.8Mt at 0.03% U3O8 (8.8 Mlbs U3O8)

States Michael Hudson, Mawson President & CEO:

"We are pleased to have commenced drill testing extensions of at Duobblon, which remains as Sweden's largest hard rock uranium resource. The Company plans to create shareholder value in 2010 by further exploration of its diverse uranium exploration portfolio in Scandinavia and potential new acquisitions."

Dear Friends:

With special permission from Mr. James Dines, I am happy to report that **in his "2010 Annual Forecast"** issue dated 13 January, 2010 **he has upgraded Mawson Resources from a 'Hold' to a 'Buy'**.

Mr. Dines has been following the progress of Mawson for several years now and he has kept himself apprised of the Company's progress.

His Annual Forecast Issue alone is well worth the

Mawson Press Release

●Mawson Resources holds significant uranium resources in the nuclear energy reliant countries of Sweden and Finland. As the European Union reduces its reliance on carbon-based energy sources, Mawson is well placed as the Company develops its exploration portfolio towards the sustainable production of uranium in the shortest possible time frame.

CEO in Video Interview](#)

subscription price to "The Dines Letter" (TDL) and you can subscribe for it **here**: <http://www.dinesletter.com> (Scroll to the bottom of his website to subscribe).

Importantly, he states on his website that **"Uranium mining stocks are just beginning to spike"**.

As an aside, he also forecasts a **"screaming Rare Earth Metals stock boom ahead"** as well as **"a coming currency collapse which will catapult Gold to never-before-seen-heights"**.

Mr. Dines' forecasting skills are indeed legendary and I as an investor certainly heed his advice and actually - - - I have more than tripled my money on his advice.

Belgium, Sweden, Finland, and France they have all gone nuclear with uranium fuelled power plants. It seems everyone is building them including the USA and with China planning to boost its nuclear power capacity by some 500% - - - you need uranium to fuel them all.

No wonder Mr Dines says **"Uranium mining stocks are just beginning to spike"**

He is keeping his eye firmly on the ball as is Mawson with its significant uranium resources in nuclear reliant Europe. **Mawson Resources is steadily developing its projects towards sustainable production of uranium in the shortest possible time frame in order to supply the many pounds of uranium required to fuel these 'uranium power plants'.**

Stay Closely Tuned!!!

Regards,

Nick L. Nicolaas

"Mawson is very well placed as a European uranium explorer, with a project portfolio that includes both resources and high merit exploration projects in Scandinavia. Combined with a strong technical team and adequate funding, we look forward to adding further value through discovery and acquisition during 2010."

--Michael Hudson, CEO, Mawson Resources
